Objective

I am a motivated third-year student earning their Bachelor of Science in Computer Science looking for an internship in software engineering or web development.

Education

Wayne State University - 42 W Warren Ave, Detroit, MI 48202

- Currently attending
- 4.0 Major GPA

Relevant Completed Coursework as of Summer 2022

Computer Architecture, Computer Science I: Object-Oriented Programming,
Computer Science II: Data Structures and Algorithms, Introduction to Programming with Python,
Java Programming

Experience

Coding Projects

Daily motivational quotes mobile application

- An app built with Flutter that allows users to receive motivational quotes from an API and save them for future reference. Authentication and cloud storage are managed with Firebase.

Personal portfolio website

- A portfolio website that I created with the React JavaScript library for the frontend and Sanity for the backend content management.

Ecommerce website

- An online eCommerce website created using React and Next.js for the frontend and Sanity for the backend content management. Online payments are done with Stripe.

Software Engineering

Additionally, I have experience with the Software Development Life Cycle including CI/CL, unit testing since I collaborate with a team on a full-stack website.

Technical Skills

Programming Languages

C++, JavaScript, Java, Python, HTML, CSS

Software

IntelliJ IDEA, PyCharm, Visual Studio Code, SQLite, MySQL, GitHub, Git

Platforms and Frameworks

Flutter, Firebase, React, Next.js, Tailwind CSS
